

Job title: WordPress Web Designer/Developer - Contract

Company: [Avalanche Creative](#)

Reports to: Project Manager

Compensation: Hourly, Rate dependent on experience

Duties and responsibilities:

- Create custom post types in WordPress
- Create ACF (Advanced Custom Fields) field groups for custom post types directed by our content team's Google docs
- Create Beaver Themer layouts and connect ACF fields to custom post types
- Design a custom theme based on client website discovery notes and benchmark sites
- Use our project management software, ClickUp, to track time and make project requests
- Address website feedback and resolve issues assigned
- Occasionally attend client meetings to review websites

Required skills and attributes:

- In-depth experience building Wordpress Websites
- Experience with multiple coding languages (HTML, and CSS at a minimum)
- Solid understanding of building pages using Advanced Custom Fields, Custom Post Types and Conditional Logic
- Experience with the Beaver Builder Stack (Beaver Themer, Beaver Builder Theme, Ultimate Beaver Builder Add ons, Powerpack)
- Experience with Formidable forms
- Great communication skills (will be expected to have discovery and touchpoint meetings with our internal team)
- Can build responsive sites that are optimized (with SEO and speed optimization in mind).
- Experience with project management software (ex: Asana, ClickUp, Monday)

Hours and Schedule:

- Approximately 20 hours per week
- Expected to be available for communication 10:00 am - 4:00 pm EST between Monday - Friday
- Authorized to work in the U.S.

How to apply:

1. Record a loom video introducing yourself. Share your screen and show a project you've completed where you've used Beaver Themer, Custom Post Types, and ACF.
2. Send an email to contact@avalanchejr.com with a link to your video, your hourly rate, resume, and links to websites you've built.
